

Ali Abdullah Khan

QA Automation Engineering Lead | Test Strategy & Frameworks | End-to-End Quality Ownership

929-444-2248 | abdullah017196@gmail.com | [linkedin.com/in/abdullah017196](https://www.linkedin.com/in/abdullah017196) | github.com/hellsalve017196 | alikhhan.dev | Holbrook, New York, USA | Open to Relocation (within USA) | U.S. Citizen – No sponsorship required

PROFESSIONAL SUMMARY

QA automation engineering leader with 7+ years of experience designing and implementing test automation frameworks for high-scale consumer banking and payment platforms serving approximately 1 million daily users. Leads end-to-end test strategy from requirements analysis through automation script development, CI/CD integration, and production quality monitoring. Deep expertise in Selenium, Cypress, and Playwright across web and mobile platforms, with a strong focus on WCAG/ADA accessibility testing. Leverages AI-assisted tooling including Playwright MCP with Claude Code to accelerate automation script delivery. Record of mentoring QA engineers and establishing testing standards across teams.

CORE COMPETENCIES

QA Automation Leadership | Test Strategy & Planning | Selenium | Cypress | Playwright | Playwright MCP | End-to-End Testing | Integration Testing | Accessibility Testing (WCAG/ADA) | Mobile & Web Test Automation | CI/CD Test Integration | API Contract Testing | Agile/Scrum | AI-Assisted Test Automation | Claude Code | Mentoring | Stakeholder Management | Regression Testing

PROFESSIONAL EXPERIENCE

JPMorgan Chase & Co.

New York, NY

QA Automation Testing Lead

Feb 2023 – Present

- Led QA automation strategy for the Payment Activity and Transfer Activity experiences across the consumer banking platform, designing and maintaining end-to-end test suites using Playwright and Cypress for web and mobile platforms.
- Integrated Playwright MCP with Claude Code to accelerate automation script authoring, reducing test development cycle time and improving coverage velocity.
- Drove accessibility test automation, ensuring WCAG/ADA compliance across consumer banking products through automated audits and remediation verification.
- Owned end-to-end test lifecycle from requirements analysis and test planning through automation development and CI/CD integration, triaging customer-impacting issues via Splunk log analysis.
- Established QA automation standards and mentored associate engineers on test design patterns, code review, and framework architecture, strengthening regression confidence and reducing QA bottlenecks.
- Built a Python CLI for automated test configuration validation and deployment readiness checks, using AI to generate and verify test scenarios and catch coverage gaps before rollout.

JPMorgan Chase & Co.

New York, NY

QA Automation Engineer

Mar 2019 – Feb 2023

- Developed and maintained end-to-end automation test scripts using Selenium and Cypress for SingleDoor, a unified payment platform integrating Bill Pay, QuickPay with Zelle, and credit card payment workflows for approximately 1 million daily users.
- Authored end-to-end test scripts for a credit card debt-repayment experience, validating structured payment plan enrollment flows across browsers and mobile devices.
- Built an internal Chrome extension for automated CDN artifact validation, streamlining release verification and reducing manual QA checks across teams.
- Implemented accessibility test automation and analytics validation, enabling WCAG/ADA-compliant customer experiences and accurate event tracking across the SingleDoor platform.
- Supported production release validation and defect triage in a highly regulated financial-services environment, ensuring quality gates were met for every deployment.

Charter Communications

Charlotte, NC

Test Automation Engineer

May 2018 – Feb 2019

- Developed automated test suites using Selenium to validate AngularJS UI components and RESTful API integrations during application modernization, ensuring regression-free deployments across multiple internal products.

TECHNICAL SKILLS

Test Automation: Selenium, Cypress, Playwright, Playwright MCP, Jest

Languages: JavaScript (ES6+), TypeScript, Python, Bash, Shell Scripting

CI/CD & Tools: Git, AWS, Splunk, CI/CD Pipelines, JIRA, Figma, Chrome Extensions

AI-Assisted Testing: Claude Code, GitHub Copilot, analytics instrumentation

CERTIFICATION

AWS Certified Cloud Practitioner

Sep 2023

Amazon Web Services

EDUCATION

Queens College

New York, NY

Bachelor of Science in Computer Science and Engineering
